ARIZONA NEWS.

An Interesting Column of Items Culled From Territorial Exchanges.

St Johns Herald: Major C. B. Chapin and posse brought in three Indians this week from the Forest Reserve, charged with killing half a dozen or so of deer in the White Mountains. The trial was postponed by Judge Gibbons till the 12th inst., and the Indian Agent and Superintendent notified.

St Johns Herald: Big loads of native grass hay are being brought into town by J. T. Berry, S. C. Thomson, A. S. Russell, E. Garcia, and others. This grass, white and black gramma, sacaton, wild wheat and other kinds, grew to perfection in Canyon Blanco and neighborhood this year. It sells here delivered at \$20 per ton.

Williams News: Where is Winkleman? No, the town is neither lost strayed nor stolen, but somebody with a genius of starting things has discovered that it isn't in Gila county at all, but is in reality within the borders of Pinal county. Gila has recently spent a lot of money at Winkleman, and if the town don't stay put the supervisors are going to know the reason why.

Arizona Gazette: Word comes from Los Angeles, where J. C. Adams is working on the case, that the contract for the erection of the new Hotel Adams would be awarded within a few days, and that work upon the \$200,000 structure will begin as soon as possible after this formality is completed. It is the intention of the Adams Hotel company to have the beautiful new hostelry ready for the early fall business of 1911.

Williams News: The government has recently made a decision in relation to the Navajo Indians which will work hardships on many of the Indian traders on the reservation. It seems that the ruling is to the effect that the Indians will not be permitted to sell or dispose of their stock on the reservation and the traders will not be allowed to loan money on chattels to them. It is understood the ruling was to increase the blanket industry among the Indians.

Douglas Industrial: Greenlee county will hold its first election on Tuesday next, when a full set of county officers will be chosen. In addition to voting for county officials the voters of the new county will choose the location of the seat of government. Clifton has for years been regarded as the metropolis of that section now included in Greenlee county and quite naturally wants the county seat placed within its limits. Duncan, the flourishing town on the Gila river, is also after the county seat of Greenlee and Morenci seems to be favoring Duncan.

Coconino Sun: Mr. A. C. Ringland, district forester, accompanied by Mr. McGaffey, of the American Lumber company, Albuquerque, went through Flagstaff Tuesday morning on their way to Williams to attend a meeting of the lumbermen's advisory board and forest officials. President Dermont, of the Saginaw Lumber company, and President T. A. Riordan, of the

Arizona Lumber and Timber company, of this place, are members of the advisory board. Mr. T. S. Woolsey, of Albuquerque, was also in attendance. The purpose of the meeting was to talk over matters pertaining to government timber sales.

Arizona Gazette: The Board of Supervisors has agreed to the Board of Trade proposition to furnish part of the funds necessary to bring a moving picture outfit to Phoenix for the purpose of taking views during fair week and the operator and machine will be sent from San Francisco. Three hundred dollars are necessary to get these pictures. One-half of this sum is provided by the fair commission and the other half by the Board of Supervisors. A set of films will be retained by the Board of Trade for use in the Los Angeles exhibit, and elsewhere, while the manufacturing company will place other sets throughout the country, where they will be of great help in advertising Phoenix and the valley.

Phoenix Republican: M. G. Greenwald is developing in a small way a new industry in Phoenix. During the past season he has shipped sweet myrtle and date palm branches from here to Chicago, New York, Cincinnati and other places for use in the Jewish synagogues, which heretofore imported this greenery used in their religious worship clear from Palestine. They are learning that they can get equally as nice myrtle and palms here as anywhere, and at less cost. Also Mr. Greenwald has made a nice little profit by ordering for similar purposes a quantity of citron grown in Palestine, and having it delivered in the eastern cities direct, he transacting the business from here. He has been enabled to do that by reason of having friends in Palestine to look after his orders and attend to the shipping. Mr. Greenwald gave Gardener Keene at the Capitol grounds some citron seed last year to experiment with, but he was unable to grow it here last season, the heavy frosts of last winter killing the plants. He has secured some more seed and it will be tried again this year, as last winter's frosts were unusual and may not occur again for a long time.
